

ANKIT BHARDWAJ

Flutter Developer | Frontend Developer | B.Tech CSE (AI & ML)

Haryana, India | +91 8307945579 | ankitbhardwaj94684@gmail.com | linkedin.com/in/ankit-bhardwaj-612b34334

TECHNICAL SKILLS

Languages:	Dart • JavaScript • Python • SQL
Frameworks:	Flutter • React.js
Databases:	Firebase (Firestore / Auth) • MySQL
Tools:	Git • GitHub • VS Code • Android Studio
Concepts:	REST APIs • State Management • Responsive Design • UI/UX Design

PROJECTS

SAMVEDAN – Civic Issue Reporting App (SIH 2025)

Flutter • Firebase | Frontend Developer | Team Project

- Participated in Smart India Hackathon (SIH) 2025 — India's largest national-level hackathon; served as the sole Frontend Developer responsible for all UI design, screen flows, and Flutter implementation.
- Engineered a real-time civic complaint platform using Flutter & Firebase Firestore, enabling citizens to log, track and manage civic issues with live status updates.
- Designed intuitive, Material Design-compliant screens; integrated Firebase Authentication for secure login and collaborated with teammates to wire frontend with backend APIs.

AI Tourist Guider (College Tech Fest)

Flutter • AI/ML | Frontend Developer | Team Project

- Participated in college-level Tech Fest with an AI-powered travel companion app — showcased as Frontend Developer, responsible for all UI screens and Flutter implementation.
- Developed features including smart attraction recommendations, personalised itinerary planning, and a mobile-first experience optimised for performance and usability.
- Integrated AI/ML-driven suggestion engine with the Flutter frontend; designed clean, intuitive interfaces to present complex travel data in a user-friendly format.

Personal Portfolio Website

React.js | Solo Project | 2024

- Built a fully responsive personal portfolio using React.js with smooth animations, clean typography, and fast load times — showcasing projects, skills, and contact info.
- Applied SEO best practices and component-based architecture for maintainable, scalable code across all screen sizes.

EDUCATION

B.Tech – Computer Science Engineering (AI & ML)

2024 – 2028

World College of Technology & Management, Gurugram

Relevant Coursework: Data Structures & Algorithms • Machine Learning • Mobile App Development • DBMS • Software Engineering

CERTIFICATIONS & TRAINING

- Training Workshop on 5G Network Security – IIT Delhi
- iOS Mobile Application Development with AI/ML – WCTM Gurugram
- Advanced Backend Development: APIs, Databases, Security & Deployment

KEY HIGHLIGHTS

- Competed in Smart India Hackathon (SIH) 2025 and College Tech Fest as Frontend Developer — delivered two complete Flutter apps under competitive, time-pressured conditions.
- Hands-on experience across the full frontend lifecycle: UI/UX design → Flutter implementation → Firebase integration → team collaboration.
- Completed IIT Delhi's 5G Network Security workshop, reflecting a drive to stay current with emerging technology beyond the classroom.
