

ANKIT BHARDWAJ

Flutter Developer | Frontend Engineer | AI/ML Student

Haryana, India | +91 8307945579 | ankitbhardwaj94684@gmail.com | [LinkedIn](#) | [Portfolio](#)

EXPERIENCE

CodeAlpha — App Development Intern

July 2025

- Built 3 production-ready Flutter apps (FitPulse, Lingo Learn, Flashcard Quiz) — integrated Firebase Auth, Firestore, and SQLite across projects.
- Delivered complete mobile application lifecycles: UI design, state management, authentication flows, and data persistence within internship timelines.

PROJECTS

FlatFlow — Roommate & Flat Management App

Flutter • Firebase • Riverpod • Firestore

- Engineered a shared-living app with expense tracking, settlements, and member management using Riverpod and real-time Firestore sync. [GitHub](#)

FitPulse — Fitness Tracker

Flutter • Firebase • SQLite

- Built workout logging, water intake, goals, and daily activity tracking with Firebase and SQLite for local/cloud data persistence. [GitHub](#)

Lingo Learn — Language Learning App

Flutter • Firebase • Authentication

- Developed vocabulary, pronunciation, quizzes, categories, favorites & progress tracking; secured with Firebase Authentication. [GitHub](#)

Flashcard Quiz App

Flutter • Dart • Firebase

- Interactive flashcard and quiz application for focused learning and knowledge checks using Flutter and Firebase. [GitHub](#)

SAMVEDAN — Civic Issue Reporting App (SIH 2025)

Flutter • Firebase | Frontend Developer

- Frontend Developer at Smart India Hackathon 2025 — built all UI screens in Flutter, integrated Firebase Firestore & Auth, collaborated on backend API wiring.

Personal Portfolio Website

React.js • GSAP • Responsive Design | Solo

- Responsive portfolio built with React.js & GSAP, showcasing projects, skills and experience; SEO-optimised. [Live](#)

TECHNICAL SKILLS

Languages:	Dart • JavaScript • Python • SQL
Frameworks:	Flutter • React.js • Riverpod
Backend/Services:	Firebase • Firestore • Firebase Authentication
Databases:	SQLite • MySQL
Tools:	Git • GitHub • VS Code • Android Studio
Concepts:	REST APIs • State Management • Responsive Design • UI/UX Design

EDUCATION

B.Tech – Computer Science Engineering (AI & ML)

2024 – 2028

World College of Technology & Management, Gurugram | Coursework: DSA • ML • Mobile Dev • DBMS • SE

CERTIFICATIONS & TRAINING

- 5G Network Security Workshop – IIT Delhi
- iOS Mobile App Development with AI/ML – WCTM Gurugram
- Advanced Backend Development: APIs, Databases & Security

KEY HIGHLIGHTS

- CodeAlpha App Development Intern — independently built 3 complete Flutter apps covering Firebase, SQLite, authentication, and state management.
- Smart India Hackathon 2025 participant as Frontend Developer — delivered a full Flutter + Firebase app under national-level competitive conditions.
- 5+ Flutter applications built end-to-end: UI design → Riverpod/state management → Firebase integration → deployment-ready builds.
